*The Symphony Collection - outstanding performance with stunning beauty.*

BS EN ISO 9001:2000  
Certificate No: Q 09531

BRITISH BOARD OF AGREEMENT  
Certificate No. 91/2681

BS EN 1279  
KM 40993

Due to our policy of continuous development, we reserve the right to alter specifications without prior notice.

All glass units are manufactured in accordance with EN1279.  
However only units manufactured by Door Panels PLC are covered by the Kitemark scheme.

Coloured and etched designs shown are screen printed and incorporate a textured decorative glass, backed by clear glass only.

The Fantasia designs shown in this brochure are manufactured under tightly controlled conditions.  
However, due to limitations of the process beyond our control, these designs will occasionally produce minor imperfections.  
These are regarded as acceptable. The Fantasia designs are manufactured from a resin and should not be interpreted as a traditional bevel.  
All Fantasia designs are available with a clear backing glass only.

The Forte range of door panels are built as triple glass units with obscure glass in the centre pane and backed on clear glass as standard only.
